

I joined Edmund Carr as a junior in the Accounts and Audit Department in April 2016, a year after completing my A Levels at Braintree Sixth Form. Previous to my employment at Edmund Carr I began studying for my Certificate in Finance, Accounting and Business (CFAB) at another accountancy firm, until the proprietor retired.

Since working at Edmund Carr I have continued to study towards the CFAB qualification where I attend college at First Intuition, Chelmsford on block release. This enables me to apply the knowledge I have gained at college, along with the practical skills gained at work, when preparing accounts and when I am out on audit.

Edmund Carr is a very friendly place to work, where there is always support in the form of a designated mentor, as well as other members of willing staff who are always happy to assist with any queries I may have.
