

I Joined Edmund Carr in May 2023 having recently graduated with a 2:1 Degree in Economics from the University of East Anglia. I am now on a Level 7 Contract, studying towards my ACA Qualification.

I work in the Audit and Accounts department. The work that I do usually varies each week and I have been able to work on accounts jobs for Sole traders, Companies and Charities. As I am also in the Audit team, I have been on multiple audits throughout the UK to undertake in audits for companies, schools and charities.

During the apprenticeship, I have been enrolled in College, which teaches me all about the theory and practice of accounting. This is great, as before Joining Edmund Carr, I had no prior experience or education of accounting. Everyone at the firm is either going through their studies currently or have finished them, so if I have any questions, I can ask the people at work.
