

I joined Edmund Carr in July 2024 having recently graduated with a 2:1 Degree in Accounting & Business Management from the University of Westminster. I am now on a Level 7 Contract, studying towards my ACA Qualification.

I work in the audit accounts team, where my work usually consists of preparing accounts for companies and sole traders, bookkeeping and I also undertake audits on a range of clients such as companies, academies & charities. The work is extremely varied and gives me great exposure to all areas of the Accountancy industry.

During the apprenticeship, I have been enrolled to our training provider (First Intuition) that teaches and prepares me for all the subject areas covered by the ICAEW exams. This allows me to relate all the subjects that I learn to the work that I do in practice. Everyone at the firm is either going through their studies or have finished them, so I have a lot of support from everyone in the firm.

Both the firm and First Intuition were extremely accommodating with my exemptions that I gained from university, and they were able to tailor my study plan to incorporate these.

James Clark

Level 7 ACA Trainee
